From the New York Times bestselling author Lorraine Page This book blew me away. - Emma Hart, NY Times bestselling author of Love Game Read it in an air-conditioned room or turn on a fan - this. Have. HOT. - Melanie Harlow, author of Speak Easy Fixed on You is the first book in the trilogy, but ends without a cliffhanger. Because of the mature material, it is recommended from the age of 17 years. Harassment and restraining orders are a matter of Alaine Wither's past. With her MBA recently in hand, she has her future figured out - move up to the nightclub she runs and stay away from any guy who can cause a call obsessive love disorder. It's the perfect plan. But what Alayna doesn't figure on is Hudson Pierce, the new nightclub owner. He's smart, rich and gorgeous - the kind of guy Alayna knows to stay away from if she wants to keep her past tendencies under control. Except Hudson took aim at her. He wants her in his bed, and he doesn't make a secret of it. Avoiding it is not an option after he offers a business offer she can't refuse and she is drawn further into his universe, unable to resist his gravitational pull. When she learns that Hudson has her own dark history, she realizes too late that she has fallen in love with the worst man she could relate to. Or maybe their less-than-perfect past give them the opportunity to heal each other and finally find the love of their lives missing. Why read online and download books? When I met Donovan Kincaid, I knew he was rich. I didn't know it was dirty. To tell you the truth, I was just trying to get his best friend to notice me. I knew that poor girls had scholarships as I had no chance against guys like Weston King and Donovan Kincaid, but I was in love with his world, their world, parties and sex and power. I knew what I wanted - I knew who I wanted - until one night their world tried to bite me back, and Donovan saved me. He saved me, and then Weston, noticed me, and I finally learned that it was to be in their world. And then what it's like to lose him. Ten years later, I found my way back. Back to their world. Back Back It. This time I'm ready. I've been on this path before, and I know all the dirty, dirty ways Donovan will try to ruin me. But it's hard to resist. Especially when I know how much I liked it. From NYT bestselling author Lorelyn Page, discover a whole new world filled with sex, love, power, romance and dirty, dirty rich men. 4.5 stars! If dominating and controlling still tortured heroes make your heart race, then fixed On You will rock your world! I totally loved this book!!! It gave me that amazing belly-waving, thrilling sense of excitement that only my favorite books give me :)Pretti a lot of my favorite type of story line flaws or damaged characters working together to try to build a functional relationship while struggling with understandable issues, but without stupidity or frustrating behavior and this book ba 4.5 stars! If dominating and controlling still tortured heroes make your heart race, then fixed On You will rock your world! I totally loved this book!!! It gave me that amazing belly-waving, thrilling sense of excitement that only my favorite books give me :)Thirty a lot of my favorite type of story line of flawed or damaged characters working together to try to build a functional relationship while struggling with understandable issues, but without stupidity or frustrating behavior, and this book basically delivered that to me on a silver platter. I couldn't have been happier - an absolute book paradise! Fans of the Crossfire series should definitely check it out! Ever since I finished these books, I've been in the conclusion wanting another book of this type, but I couldn't find one that quite got to the point... but this one gave me the same intense feeling and I just reveled in it! That being said, he totally stood his ground as far as the story went. Yes, many of the base points were the same as many other billionaire stories out there, but the details were unique, and so it definitely felt like a fresh story. The story follows Zaline, who, as a result of the circumstances of her past, developed an obsessive relationship disorder - meaning she would very easily latch on to the relationship and fall in love so that she'd get lost in stalker territory from time to time in her past. It was an issue she struggled with and went to therapy, but she still struggled with it every day. But she was building her life, got an MBA and worked a big gig at a club bar when the club was suddenly acquired by billionaire Hudson Pierce.Hudson was exactly the kind of guy she should stay away from - the kind that would cause her. Gorgeous, alluring, self-confident, controlled, dominant. The problem was, he had his sights fixed on it and came to it with an intriguing suggestion... He wanted to hire her to be his public girlfriend. He was in a situation that he wanted to get out of and with would sort out all his problems, so he had to sell the fact that they were in love. It's a pretend relationship -- to what extent Did I have to perform? Don't foot about it. You're asking about sex. His eyes darkened again. I never pay for sex, Alaina. When I fuck you, it'll be free. Of course, Alayna was understandably wary of suggestions at first knowing well that he would just feed in her compulsion making it even harder for her not to latch on emotionally, and it didn't help that Hudson's interest with her wasn't just professional... I apologize for overwhelming you. That wasn't my intention. But I want you to know that no matter if you decide to help with my situation, I will continue to seduce you. I'm a person who gets what he wants. And I want you. And he also harboured dark secrets from his past, which made him almost incapable of love... First, let me clarify one thing... I will say and do things - romantic things perhaps - that are not genuine. I need you to remember that. From the eyes of the public, I'll seduce you. It will be authentic, but it can never be misinterpreted as love. Because you are incapable of love. ... Yes... but despite all this, their attraction and feelings were real, and even her problems and his secrets couldn't keep them apart :)I absolutely adored Hudson. He was the guy who makes my heart hurt. It was alluring and at the same time contradictory. He remained distant and on the sidelines, while at the same time he seemed completely enthralled by it. But I'm just such a sucker for controlled yet tortured heroes .... they make my heart melt every time, and Hudson was no exception. Honestly, I wasn't sure how I would feel about Alayna at first considering what I knew about her obsession, but I ended up liking that he made her flawed because although she was very aware of her limitations and although she made her wary of their relationship, I liked that she had something real she was struggling with, that I absolutely loved that while Alayna did have problems, she wasn't broken and she certainly wasn't a pushover by any means. The scenes with her face to face with Hudson's mother were just amazing! Here's just a little taste ... Tell me, Aline- was your son's first attraction because of his money or his name? Pissed don't even begin to describe how I felt. I nodded, but under control. Without missing a beat, I hugged Hudson and answered. Neither. I was attracted to him because he's hot. Although, I stayed with him because he's awesome in bed. So she had problems, he had secrets, and their relationship was fictitious, but somehow it all just worked. There have been so many times when you would be wondering... how much of what was going on between them was for the show and how much was it real feeling developing? Where was the line? When did it start to blur? If I wondered what the whole act was displaying... It in the ear said otherwise: It is, precious. It's real.' There's just something about characters with deep problems actually trying to work through them in a functional way that's just just my heart is happy. I liked that I never once rolled my eyes or wanted to strangle either Alayna or Hudson. Yes, they both sometimes deteriorated. No, none of them were perfect. But... I liked that I felt like they both wanted everything to work, and because of that, I loved reading about their ups and downs. And as history progressed, their connection deepened, and it wasn't just a physical connection, they were also a match in intelligence, and because of their dark past, they both found things in each other that they could sympathize with. I turned to him and found his look of no pity. Instead, he held an understanding. More and more, I realized that I was special to him because of this unique recognition that he saw in me. This book also kept me smiling and fanning myself. It wasn't carefree, but it was a lot of fun! There were some common shocking moments, some laugh-out-loud moments and a boatload of exercise, but the heart was what drew me in. for a good chunk of the time I read, I had that delicious butterfly in my belly feeling. It was hot, exciting, and engaging. I really loved it :)This is the kind of book that gets better as it goes along though. In the beginning, for the first 40% or so, I sat on a comfortable 4-star rating. I liked it, but waited for that extra spark and then just the pieces really started to get together until by the end, I was pretty much on 5-star love. So I'm going to round it up to a very happy 4.5 star rating, yes, and I seriously just want to hug the author for not leaving this book on a rock. I mean it. Despite the fact that this is the first book in the trilogy, no cliffhanger!! No problem. Not even dark is something from the past that creeps in or anything. I mean sure there's more of their story to tell, but it was like the author totally trusted that you want to read the next book of your own accord, and you know that?? I FULLY KNOW!!!! Overall, this book has pressed all the right buttons for me. I loved the characters, took care of them, and wanted them to work their questions. Not to mention that this book has some serious fervor in it - I mean... that's what you get with a dominant, controlling hero (greens)... so overall, it took a while at the beginning for this book to completely capture my heart, but once it did, it didn't let go and kept it through until the very end. This is definitely the start of a new favorite series for me. Fixed On You is the first book in the trilogy, but again, not a cliffhanger! You are perfectly safe to go ahead and read this now! The squee!4.5 star sequel, Found in You, will be released on October 1, 2013 and will continue with the Hudson and Aline story. My casting: Harassment and restraining orders have always been in the past of Alaine Wither. With her MBA recently in hand, she has her future figured-out- to move up in Club she works and stay away from any guy who can cause her obsessive love disorder. It's the perfect plan. But the fact that Aline is not this is Hudson Pierce, the new owner of the nightclub. He's smart, rich and gorgeous-looking guy Alayna knows to stay away from if she wants to

keep her past tendencies under control. Except Hudson took aim at her. He wants her in his bed, and he doesn't make a secret of it. Avoiding it is not an option after he offers a business offer she can't refuse and she is drawn further into his universe, unable to resist his gravitational pull. When she learns that Hudson has her own dark history, she realizes too late that she has fallen in love with the worst man she could relate to. Or maybe their less-than-perfect past give them the opportunity to heal each other and finally find the love of their lives missing.
